

## FY23 Semi-Annual Report

REPORTING PERIOD: 1 OCT 2022 TO 31 MARCH 2023

# Village2Village

## Story of Transformation

"Thanks to World Vision intervention, my wife and I became members of the saving group and as a result, we can save money in the group to change our living condition. Before being a member of the saving group; we didn't save money. But now we can save and borrow money to engage in different activities. I can rent land for farming and get additional income and food for us. My wife has also started small business activities and getting more money to change our lives. Before we joined the saving group our home was one room only, we didn't provide enough nutritious food for our children and us. But now, we can feed our children good food and build a wide house with separate bedrooms. We have started living a happy life. World Vision support in strengthening us is continued and I want to say thank you."

## HIGHLIGHTS OF YOUR IMPACT

### Progress in **Water, Sanitation & Hygiene (WASH)**

**26,585** people in total gained access to clean water & improved sanitation & hygiene

**ZAMBIA** **4,557** more people now have a toilet at home, helping to stop children and families from defecating outdoors and limiting the spread of diseases.

**INDONESIA** **819** more people now have clean water less than 30 minutes from home, helping to free community members, especially women and girls, from a life spent gathering water.

**KENYA** **750** girls and boys now have safe water at their schools, helping fewer children to get sick from drinking dirty water.

**CHINA** Sewage facilities were built in **4** villages where sinks were equipped for 40 families.

### Progress in **Health & Nutrition**

**11,527** people in total received health & nutrition support to tackle hunger, malnutrition & wasting

**MALAWI** **2,485** children under age 5 had their health checked by a community health worker, helping to identify any health issues so children can get the treatment they need.

**NEPAL** **706** caregivers were trained in home vegetable gardening and how to make nutritious meals for their children, so that their children can grow up healthy.

**SRI LANKA** **22** schools, 17 childcare development centres and 20 preschools with total 3,040 children have benefited from mid-day meal or feeding programmes.

**MYANMAR** **451** mothers and pregnant women were equipped to protect the health and safety of themselves and their babies during childbirth as well as post-birth.

## Progress in Education

**13,967** children in total received education and life skills for a brighter future

**CAMBODIA** **3,053** girls and boys in Grades 1 to 3 took part in our literacy programme, helping them improve their reading.

**CAMBODIA** **1,201** books with local stories in the local language were given to schools and reading camps, inspiring more children to learn to read both in school and outside of school.

**KENYA** **2,100** children aged 3 to 6 go to preschool, helping to lay the foundation for them to succeed at school.

**CHINA** **9** new or renovated preschools now meet our quality standards, helping more children to get a better start to their education.

## Progress in Livelihood

**4,068** people in total received financial aid and livelihood support for increased incomes

**SRI LANKA** **305** adults are active members of a local savings group, helping them provide for their children, now and in the future.

**VIETNAM** **245** adults and youth were trained in technical or practical job skills and trades, helping them to increase their job options and earn a living.

**ETHIOPIA** **120** farmers learned sustainable production methods, securing their farming resources and income for the long term so they can provide for their children.

**PHILIPPINES** **47** families started a small business, empowering them to earn a living and meet their children's basic needs.

## Progress in Child Protection

**7,877** children protected against violence, neglect and abuse

**WEST BANK** **2,464** children participating regularly in activities at 12 children's clubs (Makani Clubs) started to provide safe spaces at community schools for children.

**PHILIPPINES** **2,312** girls and boys took actions like speaking out against harmful attitudes and practices, to help end violence against children in the community.

**MONGOLIA** **1,411** people reached via Celebrating Families program that serves to provide caretakers, families with positive discipline training, increased dads' participation and knowledge about child protection and family education; more than 230 dads were involved.

**CHINA** **819** parents learned positive parenting skills, including how to discipline children without physical or emotional punishment, helping to protect girls and boys from abuse.

*"During the Children's Month Celebration in our community, we had a discussion on Good Touch and Bad Touch. At first, I did not really understand that there are different types of touch and some can potentially harm us. During our discussion, we were taught that our bodies are our own and no one has the right to touch us in a way that makes us uncomfortable or scared. I also learned that it's okay to speak up and tell a trusted adult if something doesn't feel right. I hope every child will have the opportunity to learn about Good Touch and Bad Touch because it is an important topic that every child needs to be aware of to prevent child abuse in our homes and community." - John\*, 11, child participant during Good Touch and Bad Touch activity conducted in Antique AP in the Philippines.*
